Panels ordered will be delivered to your stand during set-up on the Tuesday morning.

Using the panels

These panels are Velcro compatible, so exhibitors **MUST BRING** their own Velcro dots or strips (the loop side) to attach posters and other items. Please do not use pins, as they may get lost in the grass. Pins are not ideal for these boards.

Setting up your marquee

Exhibitors need to bring their own stationery supplies. The USYC organisers' office will not dispense Velcro, scissors, pens or paper.
